Experience

Software Developer & Tech Lead | Tech'N Goodwill Limited
Freetown, Sierra Leone | August 2023 - Present

- Worked with colleagues to build and design various websites and apps, including an e-commerce site and a fintech app, for clients and the company. This involved understanding and implementing user requirements and recommendations, showcasing expertise in user-friendly design
- Demonstrated adeptness in content creation by developing engaging and relevant website and app content tailored to client specifications, ensuring seamless integration with design elements and user experience objectives.
- Played a key role in fostering a collaborative and supportive team environment, encouraging open communication and knowledge sharing among team members to facilitate continuous learning and professional growth.
- Conduct code reviews to ensure adherence to coding standards and best practices.
- Implemented an agile development approach, collaborating with designers and engineers to build a user-centric FinTech product; reduced onboarding time by 50% and improved customer satisfaction.

Interim Developer | AltSchool Africa
Lagos, Nigeria | March 2023 - Present

- Deliver excellent project design by paying attention to detail, responsiveness and functionality.
- Build websites and apps using various languages and framework.
- Collaborated as a team to build efficient and visually appealing web apps.
